Into the Blue

Underwater photography · Five photographs

Photography by Jairus

SERIES STATEMENT

Into the Blue

Into the Blue follows changing scale underwater, moving from a diver held inside a sardine school toward reef fish, a turtle, an anemone and reflected surface light. Across five photographs, density gives way to smaller habitats and finally abstraction, with marine life, reef structure and light used as measures against one another.

SEQUENCE

- 01 Inside the Sardine Run
- 02 A Flash of Violet
- 03 The Green Turtle
- 04 Home in the Anemone
- 05 Light at the Surface
